TWO MEN KILLED AT POLITICAL SPEAKING

Just an Candidate Quit Speaking Shooting Began.

BOTH MEN ARE SHOT TO PIECES

After Killing Hasty, Irvin Ran, but Was Pursued and Shot to Death by the Friends of Hasty—Quarrel Was About a Bill.

Chipley, Ga., May 25.—In a pistol duel here Wednesday Joe Hasty, a farmer, who lived about 2 miles from here, was instantly killed and Irvin, the slayer, was shot to death as he ran from the scene by several persons who pursued him.

The first shooting occurred on the outer edge of a grove, in which was an audience listening to a political speech by Hoke Smith, and the second killing took place about three blocks away.

The crowd left the grove and Mr. Smith was forced to discontinue his speech. He was not able to resume it afterward.

There had been bad feeling between Hasty and Irvin over an alleged debt of 15 cents, which the former is said to have owed the latter.

Wednesday the two men met in the crowd at the speaking and exchanged hot words. Persons who heard them anticipated trouble, and reported the matter to the city marshal, who talked to the two men, and apparently smoothed over the trouble. A few minutes after he left, however, the two men began shooting at each other, the crowd falling away in an effort to escape danger.

Hasty soon fell mortally wounded, and expired immediately. Irvin ra and was pursued by several men, whose identity is not yet known. The pursuers opened up a regular fusilade of shots, and before he had gone more than three blockks Irvin fell and died having been struck by a number of bullets. In all, about sixty-five shots were fired. It is said that others beside Irvin fired at Hasty while the difficulty in the grove was in progress.

Two spectators in the grove were slightly injured by bullets, which grazed them.

Irwin was 25 years of age, and was married about six months ago. Hasty was 31 years of age, and unmarried.

Effort to Settle Failed.

Columbus, O., May 25.—An effort to bring about a settlement of the mining controversy in Ohio at a conference between John H. Winder, president of the Sunday Creek Coal company, William H. Green, president of the Ohio miners, and Rev. Roderick McLachen a Catholic priest, of Belmont county Wednesday night failed and the two mines in Jefferson county, Ohio, resumed operations with nonunion men early Thursday. Mr. Winder, who is chairman of the "stand pat" operators of Ohio, Indiana and Illinois, had received no report early Thursday of any disorder in the mines started. The mines are defended by stockades and a Maxim gun and a company of armed Pinkerton men.

To Norway on Honeymoon.

New York, May 25.—Colonel Max C Fleischmann, of Cincinnati, and his bride sailed Thursday on the Kaiserin Auguste Victoria, enroute to Tromsoe Norway, for a summer honeymoon trip to Franz Josef Land. They and friends who are going with them, will meet at Tromsoe, Norway, on the Norwegian exploring steamer Laura. After completing the stock of a year's provisions, and getting the dogs for the sledge trains, the ship will proceed to the far north, expecting to get back in October next to Tromsoe. The expedition is not to be a "dash for the pole," but a hunting and fishing trip on an extensive scale.

Headless Body of Man Found.

New York, May 25.—The discovery in the North river at West Ninety-sixth street Wednesday of the head and trunk of a man's body led the police to believe that they have a murder mystery on their hands. The body had been severed across the abdomen with a clean cut and one hand was missing. Central office detectives were detailed to investigate.

ASSASSINATED BY NEGRO.

Excitement Runs High at Beech Island, S. C.

Augusta, Ga., May 25.—Great mystery surrounds the killing of Mrs. Ebb Wilson at Beech Island, S. C., news of which reached the city Wednesday. While lying in bed asleep, she was struck in the back by a pistol bullet and suffered spinal injuries, from which she died instantly.

It is believed that a negro fired through the window of the room, intending to kill Mr. Wilson.

Tracks from the place to the Hamburg bridge, across the Savannah, were traced Wednesday morning, and three Augusta negroes were placed under arrest, but one was immediately released, establishing an alibi.

The two in jail—Tom Williams and Bud Lumford—are awaiting identification, but no one from Beech Island has appeared. The authorities are very reticent.

Feeling is very high across the river and cool heads are doing all they can to prevent any overt acts. There is only circumstantial evidence against Lumford, the tracks under the window being made by a broad-toed shoe with a rubber heel with a hole in the middle. Lumford was wearing such a shoe when arrested.

Late news from Beech Island is that excitement is running quite high. Crowds are collected about the Wilson home, but there is no disorder, mainly because there is no clew strong enough to lead to action.

It is generally believed that the Lumford negro is the guilty party, and there is little likelihood of trouble while he is detained at Augusta.

Father Pleads for Motorman.

New York, May 25.—Standing beside the mangled body of his 5-year-old boy, who had been crushed to death by a Brooklyn car, which the mob had overturned in its frantic attempt at rescue, Thomas McCormick Wednesday night controlled his grief and begged the furious crowd not to harm the trembling motorman. Dramatically the father told the crowd that he, too, had been through the same experience a little while ago. While he was driving an ice wagon he ran over and killed a little boy and had been beset by a mob crying for vengeance. "I was not to blame," cried the distracted father, "and it may be that this poor fellow is equally blameless." Calmed by the grief stricken man, the crowd turned over the motorman to a policeman.

Asked Woman to Get Pistol.

Gadsden, Ala., May 25.—John Bridges shot and fatally wounded Henry Crews, a young farmer, near Alabama City Wednesday. The Crew family, consisting of father and two sons, lived in the same house with John Bridges and wife. Crews, the father, and Henry, his son, became involved in a quarrel, and a fight followed, during which, it is said, the elder Crews called upon Mrs. Bridges to get a pistol and shoot his son, and she obeyed, walking up to young Crews and shooting him in the face. The wounded man fled to Alabama City on a street car, where he was found wandering around bleeding, and with his tongue paralyzed.

Sears Drowned While Bathing.

Dawson, Ga., May 25.—Tate Sears, a 14-year-old son of the late David W. Sears, was drowned while bathing in a pond near the residence of his grandfather, Judge J. W. Sears, in the eastern portion of this county. Several youthful companions of Sears were with him at the time and it seems that a boat in which he was sitting was capsized and he was thrown out suddenly in deep water, and being unable to swim well, he was drowned, notwithstanding the earnest efforts of his associates to prevent it. The boys did all in their power to save him.

Injunction Made Permanent.

Louisville, Ky., May 25.—Judge Evans, in the federal court made permanent the injunction asked for by the Douglas Park Jockey club to restrain the Kentucky Racing commission from interfering with the proposed meeting of the Douglas Park club. Judge Evans says there was no real or legal reason for the commission refusing the Douglas Park club dates, and that such action is in violation of the fourteenth amendment to the constitution.

NON-UNION MINERS ARE FIRED UPON

Eastern Ohio Coal Fields Scene of Trouble.

MEN HURIED TO SEEK COVER

After a Night of Almost Constant Firing in the Hills, the Plum Run Mine Is Opened With Strike Breakers, Having Been Idle Seven Weeks.

Smithfield, O., May 25.—The war in the eastern Ohio coal fields over the operation of the mines with nonunion labor is on.

After a night of almost constant firing in the hills, the Plum Run mine was opened Thursday for the first time in seven weeks. The nonunion miners, 125 strong, marched down the hill toward the pits under a heavy guard. They were greeted by a fusilade from the bushes. The bullets whizzed among the trees and imbedded themselves in some cars.

The strike breakers hurried to cover. The union men hurried from the settlement and gathered on the slopes above the mine and watched developments. Their women folk who were picking up coal about the pit entrances, were ordered away. After the women had gone, here and there among the bushes sounded the crack of revolvers. The men behind them were invisible.

A correspondent of a Cleveland paper, driving into the camp was fired on but was unhurt.

The fact that the hollow in which the mine is located is heavily overgrown with rubbish, saved the guards and strike breakers from harm.

When the last nonunion man had entered the mine, quiet was restored.

Grants Restraining Order.

Nashville, Tenn., May 25.—Chancellor Allison Thursday morning granted an order restraining the issuance of one million dollars in bonds voted several years ago by the city of Nashville to the Tennessee Central railroad, recently absorbed by the Southern and Illinois Central roads. This order will hold until the case involving the validity of the subscription is decided by the supreme court on its merits.

Killed Seven-Year-Old Boy.

Shaw, Miss., May 25.—A negro whose name has not been ascertained is in jail at Cleveland, this county charged with having murdered a 7 year-old boy because it is stated, the boy had refused to perform a household task, as requested by the negro. The boy's body was found near the railroad tracks, several miles from the scene of the crime, tied in a sack. Considerable excitement prevails and a lynching is not improbable.

Private Corporation Favored.

Washington, May 25.—The delivery Tuesday at Norfolk to the government of the completed battleship Louisiana of 16,000 tons, built by the Newport News Shipbuilding company, ended in favor of a private corporation the great struggle that has been going on for nearly three and a half years to determine whether the government could build at a navy yard a warship as quickly as it could be constructed in a private yard.

Participation in Celebration.

Detroit, Mich., May 25.—The Michigan National Guard battalion located in this city and the Michigan Naval Reserve brigade, participated Thursday in the celebration of Empire Day in Windsor, Ontario, just across the river from Detroit, and are fraternizing parading and drilling with the Royal Canadian dragoons from Toronto, Canada.

Points of Dispute Left With Judge.

Chicago, May 25.—All factions engaged in the struggle for possession of Zion City and its industries have agreed that Judge Landis, of the United States district court shall settle all of the points in dispute. A written stipulation to this effect, signed by both Dowie and Voliva and their attorneys, was presented to Judge Landis Thursday.

DARES TAFT TO MEET HIM.

Former Engineer Wallace Bitterly Attacks the Secretary of War.

Washington, May 25.—Former Chief Engineer John W. Wallace, of the isthmian canal, addressed a letter to Senator Millard, chairman of the committee on interoceanic canals, in reply to Secretary Taft's recent testimony before the committee, in which he charges Secretary Taft with having abused his official position in order to make a second assault upon him, and to place in a public record statements "calculated and apparently intended to affect my reputation for veracity, such as he would not make to me as one man to another, face to face."

He also imputes to Governor Magoon a breach of confidence in having advised him to take a certain course of action, and then anticipating it by secretly writing to Secretary Taft. While expressly stating that he bears no ill-will toward William Nelson Cromwell, Mr. Wallace speaks of the bias of Secretary Taft in favor of that gentleman, and says that Secretary Taft was aware that Mr. Cromwell, among other things, was trying to secure payment by the United States of an improper claim which, however, was afterwards disallowed by the president.

Want Six Day Week.

Chicago, May 25.—The plea that a working man should be allowed an opportunity to attend church every Sunday was advanced by union teamsters as an argument in favor of a six day week. Upon the response of grocery and market proprietors may depend a strike of 3,000 drivers June 1. In a long memorial addressed to their employers the steamsters made the Sunday question for the first time in labor negotiations the most prominent feature of their demands. Among the other demands was one for an increase in pay from $10 to $12 a week for men employed in outlying districts.

Leaped From Engine to Death.

Chicago, May 25.—A dispatch to a paper from Somerset, Ky., says that to avoid a wreck which did not occur Scott Gillespie, of Somerset, a locomotive engineer, Wednesday jumped from his engine at New River Bridge one of the highest in the world, and was killed. John Colyar, the fireman, also jumped into the river and is not expected to live. The men became alarmed when one of the trucks of the locomotive left the rails, believing it would fall from the structure, but was stopped on the bridge by the second locomotive.

Harriman Will Build New Road.

San Francisco, May 25.—The Examiner says that E. H. Harriman gave orders by wire Wednesday to officials in Portland and San Francisco to construct immediately a new road eighty miles in length from Drain, on the Mount Shasta route, in Oregon, southwesterly to Marshfield, on Coos Bay in the same state. This road will form the northern portion of a new coast line between San Francisco and Portland, thus connecting those cities by two steel highways.

Will Be Extended Unlimited Credit.

Seattle, Wash., May 25.—Frank J. Bentley, traffic manager of the Illinois Steel company and a member of the delegation sent out by the steel corporation to investigate conditions at San Francisco, who is in this city enroute east, states that as a result of the investigation, the consumers of San Francisco will be extended unlimited credit in upbuilding that city. It is estimated that 250,000 tons of steel will be used in a period extending over five years.

Must Quit Business.

Columbus, O., May 25.—A special from Lima says that the Manhattan Oil company has been notified by the attorney general that it must quit business in this state or pay the heavy fine of $50 a day imposed on corporations which violate the Willis law. The company has been paying its taxes under the Cole law, but has failed to pay taxes under the Willis law.

Mrs. Jefferson Davis Worse.

New York, May 25.—The condition of Mrs. Jefferson Davis, who suffered a stroke Wednesday night, was reported Thursday. Members of the family are remaining with the invalid in the absence of the bulletin.

UNION OF CHURCHES HAS BEEN MADE

Cumberland and Presbyterian Church in U. S. Unites.

UNION OFFICIALLY ESTABLISHED

The Consummation Devoutly Wished and Worked For Through Many Years, Despite Many Obstacles, Has Become a Reality.

Des Moines, Iowa, May 25.—"I do solemnly declare and here publicly announce that the basis of reunion and union is now in full force and effect and that the Cumberland Presbyterian church is now reunited with the Presbyterian church in the United States of America as one church."

With these words uttered before the general assembly Thursday, Moderator Hunter Corbett, officially established the union of the Cumberland church with the Presbyterian church in the United States.

The big assemblage burst into a storm of rejoicing, and clapping, cheering, and waving of handkerchiefs gave expression to unalloyed pleasure. The consummation devoutly wished and worked for through many years, despite many obstacles, had become a reality.

Wednesday a telegram was received from Decatur announcing the adoption of the joint resolution by the Cumberland church. At the opening session of the Des Moines convention, the same action was taken, and messages to that effect dispatched to Decatur.

The most intensely dramatic scene of the ceremonies attending the formal union was the vote against union by two commissioners. The votes were to be expressed by the commissioners rising to their feet. Instantly the assembly hall was converted into a stamping, cheering crowd. As the handclapping and cheering died down and the commissioners took their seats, the moderator said:

"All who are of the opinion that the motion should not prevail, will please rise."

A laugh went around the hall, for it was believed the request was a mere formality, and would meet with no response.

To the astonishment of all, two of the commissioners rose to their feet. Pandemonium broke loose, and it was feared for an instant that indignity would be offered the lonely men who opposed the union. One of the men was Dr. William Laurie, of Bellefonte, Pa., and the other was Rev. Roger F. Cressey, of Jacksonville, Ills.

Dr. Laurie is a stalwart Scotchman and his personality dominated the convention.

"Greatly as I dislike to record my vote against this union and deeply as I feel the pain of being forced to disagree with my fathers and brothers, yet I cannot conscientiously vote for this union. It is purely a question between me and my God. I have to oppose it."

Rev. Mr. Cressy said:

"This is a matter of conscience with me. I cannot honestly vote for the union."

A motion was made that the negative votes be recorded. Cries of "No" were raised. Dr. Laurie was on his feet immediately, declaring "I desire that the negative votes be recorded. I never yet was ashamed to stand by my convictions."

The record was duly made.

Arrested for Embezzlement.

Bristol, Va., May 25.—J. B. Caldwell, cashier of the Virginia Iron, Coal and Coke company's furnace operations at Ivanhoe, Va., is under arrest, charged with the embezzlement of sums of the company's money passing through his hands which will probably aggregate $15,000, a part of which Caldwell has confessed to and agreed to refund. The irregularities date back some two years and the officials of the company claim Caldwell has falsified the records of the office and has padded the pay roll. Caldwell is now in jail at Wise, Va. He is of a prominent eastern Virginia family, and a brother of society in this section, have gone from the company's general [illegible]

THREE CANDIDATES MUST COMPETE AGAIN

This Was the Ruling of State Democratic Committee.

NOBODY RECEIVED NOMINATION

Candidates Calhoun, Rivers and Fielding Must Try Again for Honors in Second Race, Owing to Vote of Baker County—Plurality Will Rule.

Special to The Sun.

Jacksonville, May 25.—The State Democratic Executive Committee, which met here today, canvassed the returns and declared the result as follows: Blitch and Burr were declared to be the nominees for Railroad Commissioner, Parkhill and Whitfield for Justices of the Supreme Court, E. W. Davis State Attorney for the Fifth District, Herbert S. Phillips State Attorney for the Sixth District. In the Eighth District, where Rivers, Fielding and Calhoun were opposing each other, Baker county refused to canvass the returns, and no election was declared. The committee ruled that all candidates would run in the second primary, and the one receiving a plurality would be declared the nominee. There was a strong protest filed against Senator Sams by C. O Codrington, his opponent from Volusia, but before action could be taken on that protest the one of J. G. McGiffen against Senator Davis was brought up, and a ruling made that the State Committee had not the jurisdiction. Following this ruling the committee amended the rules so as to place State Senators under the jurisdiction of the State Committee.

A SAN FRANCISCO EXPERIENCE.

Relatives of Mrs. I. E. Webster Narrowly Escape Heavy Loss.

Among the residents of San Francisco, the stricken city, are A. W. Cudworth and family.

Mrs. Cudworth is an aunt of Mrs. I. E. Webster of this city, and has written of the horrors of the recent earthquake and fire. The lady relates that their elegant home, which is one of the handsomest in San Francisco, came near being destroyed, the fire having burned to within one block from the residence.

In her letter, Miss Elizabeth, daughter of Mrs. Cudworth, gives a most interesting and graphic description of the disaster, concluding with the remark that no tongue or pen could do it justice.

The Cudworths are well-to-do people. The lady is the widow of a retired banker, and naturally the family have been accustomed to living in the best of circumstances; but upon the occasion of this fearful misfortune they left their home, and, along with the people of moderate means and probably less, in many instances, they made the best of the situation, associating and eating side by side with this class.

The letter stated that the family is yet taking their meals at the government commissary, for which they of course pay a reasonable price. At the time of writing no fires were permitted in the houses, which necessitated this action.

ZETROUER IS POSTMASTER.

Edward F. Zetrouer Appointed to Succeed Miss Perry at Rochelle.

Edward F. Zetrouer has been appointed postmaster at Rochelle, to succeed Miss Sallie Perry, resigned on account of ill health.

Mr. Zetrouer is a young man full of energy and ambition, and a progressive merchant of that lively town. His friends offer congratulations, and feel sure that he will fill the new position with credit and efficiency.

No Conclusion Reached.

Washington, May 25.—Secretary Taft has authorized the statement that no conclusion had been reached regarding his prospective appointment to the supreme court of the United States. The subject has gone over until Dec. 1, when congress will meet for its second session and when the successor of Justice Brown will be named.

Walked 92 Miles in 23½ Hours.

New York, May 25.—Edward Payson Weston, the old pedestrian now 66 years of age, reached the city hall in this city at 11:38 Wednesday night, having walked from the city hall in Philadelphia in 23 hours and 30 minutes, a distance of 92 miles thus beating his own record, made a quarter of a century ago.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

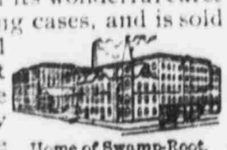
It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.



Home of Swamp-Root.

Fire Destroys Waynesboro Houses.

Waynesboro, Ga., May 25.—An alarm of fire aroused the town at 2 o'clock Thursday morning. The home of Mr. John Blount and that occupied by Mrs. Taylor, also the one below occupied by Mr. Linier, were totally destroyed. The home occupied by Mrs. Walters caught fire, but was saved. The wind was high and at one time the fire threatened to involve the entire town. The total loss on the three houses was about $7,000, most of which is covered by insurance.

Engineers Aid Sufferers.

Memphis, May 25.—The Brotherhood of Locomotive Engineers at Thursday's session brought up the matter of an appropriation for the Pacific coast earthquake sufferers and it is understood that $5,000 will be offered. The amount will be secured by individual subscriptions. Many of the delegates will go on an excursion to Hot Springs, Ark., Saturday. The train will stop over in Little Rock where a banquet will be tendered the visitors.

Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Released on Ticket of Leave.

New York, May 25.—A cable dispatch to a morning paper from Turin says that after serving three years and eight months of a ten years' sentence, Countess Theo di Landiboni Martini, who was convicted, with four others, of participating in the murder of Count Bon Martini in 1902, has been released on a ticket of leave, ostensibly because of ill health, but really as the result of the agitation of influential believers in her innocence.

AN ALPINE TRAGEDY.

Thrilling Story of a Fall Down the Matterhorn.

"One of the most thrilling stories in Alpine history is that of Mr. Sloggett's fall on the Matterhorn," writes Aubrey Le Blond. "With two Zermatt guides—Alphons Furrer and Augustin Gentinetta—this young Englishman had made a quick ascent of the mountain and was a long way down on the return journey. At one spot it is necessary to cross a couloir, or gully of snow and ice, and down this channel fall most of the stones that detach themselves from the shattered face of the peak. The leading guide, Furrer, was making his way over when a stone, dropping from a considerable height, struck him full on the head and instantly killed him. The two others, attached by their rope to his dead body, were unable in their precarious foothold to resist the shock and were immediately swept away down the couloir at terrific speed. Their axes were torn from their grasp, and Gentinetta, who never lost consciousness, was convinced that death must await them at the end of that awful journey, but this man of iron nerve kept his presence of mind and showed what a stout heart and a keen intelligence can do even in the most desperate situation.

"About 800 feet below the spot where the party were carried off a small bergschrund or crevasse ran across the ice slope which forms the base of the Matterhorn on its eastern side. This crevasse is not always open—in fact, in October, 1903, when I went on to the mountain to photograph the scene of this accident, it did not exist at all. Beneath it are ice cliffs, and any one shooting the crevasse and falling over these would have a sheer drop which must immediately be fatal, but in Mr. Sloggett's case the crack was several feet wide and into it the two still living men and their dead companion were precipitated. The chasm was partly filled with stones and sand, and Mr. Sloggett fell face down. Gentinetta, though terribly bruised, without an instant's delay seized the helpless form of his employer, pulled him out of the position in which he lay, almost suffocating, and cleared the sand out of his throat and eyes.

"His jaw was broken, and his bruises were even worse than those of Gentinetta, but no other bones were broken. The disaster was already bad enough, but at any moment an even more terrible catastrophe threatened the two poor wounded men in the crevasse. The couloir was, as I have said, a natural channel for falling stones, and it was just the hottest hour of the day, when the snow was thawing fast and loosening from its fetters the missiles it had earlier held fast frozen to the mountain. It was imperative to lose no time in waiting for assistance from the other parties who were on the Matterhorn. So the guide and the Englishman, without axes, bruised, shaken and weak, started on the desperate task of climbing back up that glassy, blood stained wall, a task hard enough even for an uninjured and fully equipped party.

"How it was accomplished Gentinetta declares he does not know, but by an extraordinary display of pluck and skill the two at length reached their old tracks and gained a place of safety. Assistance was now at hand, and with the help of the other parties the wounded men eventually arrived at the Schwarze hotel. Though laid up for many weeks after, both in the end made an excellent recovery. Poor Furrer's body was with much difficulty brought down next day from the crevasse."

BIG JUSTICE DAY IN ARCHER COURT

Justice Chamblin Had Big Pickings and Assessed Heavy Fines.

WAS ALMOST A GALA DAY

For Archer, as the Cases Attracted Good Crowds to Town from Various Sections—All Defendants Paid Fines and Costs, and Released.

There was "something doing" in the justice court line at Archer Thursday, when Justice Chamblin had arraigned before him several cases of grave offense of law. The result is that the deputy sheriff brought to the county treasurer nearly $300 in fines, as all defendants paid out. It was one of the greatest days of justice court proceedings that the usually moral town of Archer has ever seen, or will probably ever see again.

John Sands, a big, burly "coon," who had an idea that he was "running" the neighborhood, was arrested upon a charge of assault, and when taken into custody it was discovered that he had a big "44" in his pocket. That added trouble to his list, and when arraigned he was charged with assault and carrying a pistol. Justice Chamblin assessed a fine of $125 or eight months in both cases. Sands did not appreciate the idea of doing time in the turpentine or phosphate camps for eight months, hence paid the fine.

Luther Brown was arraigned upon a charge of carrying concealed weapons. He was sentenced to pay a fine of $100 and costs or spend six months chipping boxes or digging rock—and he "came across." Ghas. Floyd was the next prisoner at the bar. He also had the habit of toting a pistol, and was arraigned upon that charge. Floyd relieved the court of any trouble, however, by pleading guilty and was required to pay only $50 fine or spend six months in the "gang." The fine was paid.

During the progress of the trial Rev Williams, a colored minister who was serving as a witness, was fined $10, as it was discovered that he had committed perjury on the stand, swearing falsely in his testimony.

War Against Consumption.

All nations are endeavoring to check the ravages of consumption, the "white plague" that claims so many victims each year. Foley's Honey and Tar cures coughs and colds perfectly and you are in no danger of consumption. Do not risk your health by taking some unknown preparation when Foley's Honey and Tar is safe and certain in results. Ask for Foley's Honey and Tar and insist upon having it. J. W. McCollum & Co.

DEATH OF DR. RICHARDS.

Was a Good Man, and Will be Missed in Gainesville—Funeral Friday.

Gainesville lost one of her best and ablest citizens when Dr. Benjamin Pierpont Richards was laid to rest Friday in Evergreen cemetery. Cashier of H. F. Dutton & Co's. bank continuously for thirteen years, he will be particularly missed by the business men of Gainesville, to whom he had become endeared by reason of the uniform courtesy with which he discharged the duties of his responsible position.

Although reared in Canondaga, N. J., Dr. Richards was a Southerner by birth, having been born in Columbia, S. C., April 24, 1849, and was educated at East Hampton, Mass., and Yale College, graduating from the latter in 1871. A few years of his life were spent in Michigan. He also lived a few years in Ocala, where he has many warm friends, and in 1891-2 was an instructor in East Florida Seminary.

Dr. Richards came to this county in 1878, and being an ardent lover of nature, became enamored of the orange business. His orange grove of forty acres at Arredondo, which was destroyed by the great freeze, will be remembered as one of the finest in the State. He had replanted the orange grove with fine varieties of pecans, and it was while inspecting his pecan grove that the fatal stroke came which ultimately ended his life.

Few men are endowed with such intellectual qualities and deep learning as made Dr. Richards a marked man among his fellows, and combined with it was manliness and those high ideals of honor which make men good and useful citizens.

Although in the prime of life, Dr. Richards was fifty-seven years and one month of age, and his health was never better, apparently, than on the day he was stricken. He leaves surviving him, a widow, Mrs. Clara Richards, and a son and daughter, Benjamin Pierpont, Jr., and Christine.

The funeral services were conducted at the Episcopal church Friday at 4 p. m. by Rev. Francis H. Craighill, assisted by Rev. John H. Brown of Fernandina, after which the body was laid to rest in Evergreen cemetery.

The entire community mourns the loss of this good man and citizen who discharged faithfully to the end all duties, both private and public, and who carried with him into the great beyond the highest esteem and good will of his fellow citizens.

Funeral of An Infant.

The funeral of the infant son of Rev. and Mrs. Francis H. Craighill was held from the Episcopal church at 2 o'clock Friday evening, Rev. John H. Brown of Fernandina officiating. The church was well filled, including among the attendants members of the Gainesville lodge of Elks, of which the father of deceased is a member.

The floral decorations were profuse and fragrant, and were sent as a token of love and esteem from friends.

NEW ICE FACTORY INCREASES CAPACITY

Gainesville Ice Company Makes Extensive Improvements.

NEW PLANT HAS BEEN ADDED

Which Now Gives the Company a Dailys Capacity of Thirty Tons—One of the Largest in the State—An Industry Which is Bound to Succeed.

Attention is directed to the advertisement of the Gainesville Ice Company, which appears elsewhere in this paper.

The Gainesville Ice Company, which is owned and managed by H. F. Watts, is located at the junction of the Atlantic Coast Line and Seaboard Air Line, at the foot of West Main street. Several months ago Mr. Watts purchased the plant of the Success Ice Company, which had always been anything except what its name indicates. The plant had a capacity of twenty tons per day, compressed plan, and should have always prospered, but for some reason was continually out of repair. After the present owner assumed charge, however, the plant was thoroughly overhauled and placed in order, and has been running ever since without a break or a delay.

Realizing the demand, Mr. Watts ordered another machine—a ten-ton Columbus machine—made by the Columbus Iron Works, Columbus, Ga. The machine has been successfully installed, and on Saturday of the past week the first cake of crystal ice was pulled with great success. This plant is in first-class working order.

The Gainesville Ice Company is now one of the largest enterprises of its kind in the State, having a capacity of thirty tons per day. Nothing but Boulware Springs water, which has been proven by analysis to be the second in the United States in purity, is used, which means perfection in ice making.

This company has several teams in service continually throughout the city, which is an assurance of prompt delivery.

MEDAL TO MISS BAIRD.

She Received Elegant Medal for Declamation at High School

In writing up the exercises, etc., of the Universaity High School, high school department, which appeared in The Sun of Friday morning, the reporter omitted one feature, which was the awarding of the contest gold medal for the best declamation.

There were nine contestants for this prize, all of whom were good, but the judges finally awarded the medal to Miss Mary Baird.

Miss Baird is a fine speaker, a bright young lady with an unusual mind, and, notwithstanding the many bright minds against her, was deserving of the compliment.

The presentation address was made by Rev. Thos. P. Hay of the First Presbyterian Church in a clever and appropriate manner.

LOCHLOOSA NOTES.

Interesting Budget of News from That Hustling Little Town.

Lochloosa, May 25.—Mrs. J. C. McEwen and son left a few days ago for Ocala, where she will spend a while with her daughter.

R. J. Tompkins and family returned home Wednesday after a pleasant visit to relatives at Central.

Miss Girley McEwen is spending a while with relatives at Island Grove.

Surveyor J. W. Patton and Mr. Eddins were down a few days ago and we understand that the former's business was to survey out the grove for the hotel.

C. V. Fowler returned Tuesday after a pleasant visit to his brother, J. R. Fowler, at Gainesville.

R. G. Mingledorff made a hustling trip to Island Grove Wednesday.

Fortunate Missourians.

"When I was a druggist at Livonia, Mo.," writes T. J. Dwyer, now of Grayeville, Mo., "three of my customers were permanently cured of consumption by Dr. King's New Discovery, and are well and strong today. One was trying to sell his property and move to Arizona, but after using New Discovery a short time he found it unnecessary to do so. I regard Dr. King's New Discovery as the most wonderful medicine in existence." Surest cough and cold cure and lung healer. Guaranteed by all druggists. 50c and $1. Trial bottle free.

SOCIAL LIFE AT ARCHER.

Interesting Play Given for Manse Benefit—Other Interesting Notes.

Archer, May 25.—G. P. Quaintance of Lakeland was visiting friends in town last week.

Mrs. E. E. Coulson of Bradentown visited her parents, Mr. and Mrs. Thomas Pearson. She is on her way to visit her brother in Greensboro, N. C.

The many friends of Dr. Julian will be glad to know that he is improving.

The Archer young folks treated a large audience to a play on Monday night, "Among the Breakers." The cast was as follows:

Mother Carey	Mrs. Howard
Peter Haragraph	Guy Fleming
Hon. Hunter	Mr. Hodgson
Clarence Hunter	Mr. Dixon
Biddy Baine	Mrs. G. Fleming
Minnie Daze	Miss Seavelly
Bess Starlight	Miss Elsie Smith
Larry Lane	Mr. Brown
David Murry	Sam Fleming

The jolly party was given for the benefit of the manse, and quite a nice sum was raised. All of us wish they would get them up often, as they are so much enjoyed. Music was furnished by Misses Curl and Bauknight.

Mrs. Ed O'Donald and children will leave today for their home in Jacksonville, after a pleasant visit with the former's father, J. T. Fleming.

Miss Leila Bauknight leaves today to attend the commencement of the Mary Baldwin Seminary in Staunton, Va.

Miss Louise Trimbel goes to Gainesville today to visit her aunt, Mrs. Campbell.

The picnic given by the school on Friday was very much enjoyed by all. Had a fine dinner, and an altogether pleasant day.

Mr. Dixon, the principal of the school here, left on Tuesday for his home in Memphis, Tenn.

Mrs. Anderson and daughter, Miss Vera, who have been spending the winter here, left Monday for their home in White Springs.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

Many prior to him had seen the same phenomenon, and regarded it as an unexplained mystery.

Remys scientific research has put its finger on the cause of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

The lowest rate of illiteracy in the world is found in Sweden, Norway and Germany.

It isn't what the average man knows about the hereafter that he fears, but what he doesn't know.

Any concern which makes $36,000,000 in three months has little cause for complaint against hard times.

A Russian scientist says hair is a disease. Bald-headed men will not be likely to believe that it is catching.

The streets and sidwalks in various parts of the city will need more or less attention since the heavy rains of the past few days.

Ocala will entertain the Florida Press Association next week, and it is needless to say that "the boys" will be treated royally by the good people of the Brick City.

At last the worm has turned. An Indiana husband has out-talked his wife to such a degree that she has become a nervous wreck and is suing for divorce on the grounds stated.

Kansas is boasting. It has 85 out of 105 counties without a pauper. Twenty-five couties have no alms-houses and thirty-seven have not a single criminal case on the docket.

Gall seems to win out sometimes, but its victories are short-lived. The man who does a little better than he claimed to be able to do is the one who holds his job as long as he wants it.

The Madison New Enterprise says: "Judges Parkhill and Whitfield succeed themselves as members of the Supreme Court. This, perhaps, will relieve Brother Dodd of the 'ghoulish glee' which he anticipated."

President Roosevelt has recommended the appointment of a commission to investigate the woman in business. The investigators will probably find the women doing so well that they will want to go in business with them.

The large audiences which had to brave the rain and disagreeable weather to be present at the commencement exercises of our public school the past three or four nights clearly showed that our people have lost none of their enthusiasm and interest in matters educational.

The pretty girls down at Seaford, Del., felt so bad for the poor sufferers out in San Francisco that they decided to sell kisses at $1 apiece for the benefit fund. One rosey-cheeked, dewey-lipped, blushing maid actually brought over one hundred dollars into the relief fund in the space of two hours, and she said she was not a bit tired, either.

A San Francisco editor thus describes conditions in that city: "She's crippled, thirsty, hungry and broke; she has a few whole churches, only half her school houses, not one French restaurant, not a theatre; she is full of people without homes, jobs or clothes; she is the worst tunged up town that ever was. But the spirit of her is something to bring tears of pride to any American's eyes."

MARRIAGE.

God made the man for the woman, and the woman for the man. Each is incompetent withont the other. In our experience even those who have married indifferently will have developed completer and nobler characters than those who have remained single. Marriage teaches both the man and woman tolerance, patience, tenderness. It lulls the passions and stimulates the intelligence. When there are children the noblest virtues and aspirations are aroused. Father and mother are united in the desire to do their utmost for the helpless little ones who depend upon them altogether, and make life fresh and young and beautiful for them.

There are certain men no woman should dare to marry. She would not dare to marry a man she does not love, no matter how exemplary his character and how attractive his bank account. Happiness in marriage is first and foremost dependent upon the individual and his power of not simply respect, but the deepest and completest devotion. The man who would make one woman divinely happy would make another miserable, because he is not her mate, and the good Lord never meant her to dwell with him. There must be that congeniality, that sympathy, that inexpressible something that men call love, that accepts its mate altogether, ignoring all faults, bearing things, believing things, hoping all things, enduring all things, never failing in tenderness and loyalty even though the whole world should turn against the beloved one. Such a love is worth waiting for and worth living for. To most women there is not much else in the world worth living for—and to most men also, since it is the only sure basis for permanent happiness.

MACHINE SMOKES CIGARS.

The Department of Agriculture is employing a mechanical smoker, with the intention of improving the quality of cigar tobacco. The machine takes five cigars at a time, and smokes them with more regularity than a human being. It takes a 10-seconds even draw, gives a puff, and then waits half a minute before it draws again. Each cigar is watched carefully during the process of combustion, and every detail affecting the filler, binder, wrapper, ash and aroma is noted down. When the best results are obtained, the seeds of the particular plants used in the manufacture of the cigars are put aside for next year's planting. In this way the department is convinced they will finally produce and unrivaled tabacco.

A brother editor gets after the fellow who fails to pay his subscription in the following manner: "Wouldn't it make you mad if you worked eight, ten or twelve years for a man and all that time he never had paid you a cent for your services? And still we have several just such people on our list, persons who have been reading the paper every week for these many long years without ever paying one cent for the support of the paper. Some day, perhaps, someone will invent a diet composed entirely of air and water, and then the country editor will be able to fare with the best of them—until Rockefeller or Morgan corners the air; then he'll go up the flue."

The average man of today is not accustomed to regard his health as his very best asset, yet that is precisely what it is. The man who will accord due regard to his health, from a strictly business standpoint, will go farther, last longer and accomplish more in the end than one who makes health an after-consideration. Success which is attained at the expense of health is worth absolutely nothing to the man who attains it. There can be no pleasure either in the process or in the final result.

A novel use of compressed air is made by some railway companies in the Southern States, says The Railway News. When the loads of cotton for export are being taken to the coast, there is always some danger of such highly inflammable material becoming damaged through sparks from the locomotives. To prevent this, the locomotive boilers are filled with compressed air. A train load of several thousand bales of cotton can be hauled by these locomotives at a rate of twelve miles an hour, although no fire whatever is used in working them.

We cannot understand too well, nor heed too carefully, the laws which govern physical health. We are the most bustling, hurried, hard-worked nation on the face of the earth; and when taking a well-earned vacation, make such hard work of it that we come back more weary and exhausted than when we went.

In the "Life of George Washington" just published in England the assertion is made that the father of his country was really a woman in disguise. If the English think it is going to add anything to their credit to set up the claim that their armies were whipped by a lady they should be granted that comfort.

An unknown man who walked down the main street of New York kicking an American flag along in the dirt was mobbed by indignant citizens, clubbed by a policeman, sentenced by a court, and put to work breaking stones in a penitentiary before the day was over. He was given six months.

THE MOST IMPORTANT EVENTS

Transpiring in "The Land of Flowers." Things "Boiled Down" to Suit the Busy Reader—Items of Interest to All Classes.

Leesburg will celebrate the Fourth of July in grand style.

There is a great demand for houses in Bartow, nearly every house in the town being rented.

A solid carload of pines were shipped from Boynton last week, the average being about 24 to the crate.

The citizens of Green Cove Springs have voted to bond for an electric light plant and the municipal improvements.

The election held last Tuesday in Miami to decide whether that city was to be bonded for $100,000 for municipal improvements resulted in a victory for bonding by a large majority.

The committee on arrangements for a Fourth of July celebration in Miami have decided that one of the features will be an immense old-time barbecue, while another will be a civil parade.

An attempt was made last Saturday night to rob the residence of Postmaster Harper at Boynton but proved unsuccesful as the thieves were discovered before they had made any headway. It was well known that Mr. Harper had quite a sum of money at his home from Saturday's business.

The residents in the vicinity of Little River are in a predicament to determine just what to do with an aged white man, named Wells, who abides in a little house at that place and possesses a determination to starve himself to death. Wells, who is about 65 years of age, has been a source of annoyance and expense to the county for some time. Many believe him crazy, but physicians refuse to certify to that fact, hence he cannct be sent to the asylum. Several months ago he was examined for lunacy, but the examination proved his mental condition sound.

Was Wasting Away.

"I had been troubled with kidney disease for the last five years," writes Robert R. Watts, of Salem, Mo. "I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally, I tried Foley's Kidney Cure and less than two bottles completely cured me, and I am now sound and well." During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. J. W. McCollum & Co.

Are You Tired, Nervous and Sleepless?

Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourishing blood; they are *starved* nerves. Dr. Pierce's Golden Medical Discovery *makes pure, rich blood*, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs in oil. In this way you feel clean, strong and strenuous—you are toned up and invigorated, and you are good for a whole lot of physical or mental work. Best of all, the strength and increase in vitality and health are *lasting*.

The trouble with most tonics and medicines which have a large, booming sale for a short time, is that they are largely composed of alcohol holding the drugs in solution. This alcohol shrinks up the red blood corpuscles, and in the long run greatly injures the system. One may feel exhilarated and better for the time being, yet in the end weakened and with vitality decreased. Dr. Pierce's Golden Medical Discovery contains no alcohol. Every bottle of it bears upon its wrapper *The Badge of Honesty*, in a full list of all its several ingredients. For the druggist to offer you something he claims is "just as good" is to insult your intelligence.

Every ingredient entering into the world-famed "Golden Medical Discovery" has the unanimous approval and endorsement of the leading medical authorities of all the several schools of practice. No other medicine sold through druggists for like purposes has any such endorsement.

The "Golden Medical Discovery" not only produces all the good effects to be obtained from the use of Golden Seal root, in all stomach, liver and bowel troubles, as in dyspepsia, biliousness, constipation, ulceration of stomach and bowels and kindred ailments, but the Golden Seal root used in its compounding is greatly enhanced in its curative action by other ingredients such as Stone root, Black Cherrybark, Bloodroot, Mandrake root and chemically pure triple-refined glycerine.

"The Common Sense Medical Adviser," is sent free in paper covers on receipt of 21 one-cent stamps to pay the cost of mailing *only*. For 31 stamps the cloth-bound volume will be sent. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation, biliousness and headache.

Voluntary Wage Increase.

Danielson, Conn., May 25.—A voluntary increase of 10 per cent has been granted all cotton mill employes in this district, notices to that effect having been posted in the mills in this town Mossup, Jewett City, Wauregan and many other places in Windham and New London counties. The action of the mill owners affects 20,000 persons. It is due, it is said, to the present excellent condition of the cotton milling industry in the state.

Town In Danger from High Water.

Seattle, May 25.—The Post Intelligencer has received advices through the United States cable office from North Fork, Alaska, stating that the river at that point rose 8 feet Wednesday night and that the water had now reached the cabins from all sides. The men were working to save the cabins and if the river rises another foot, the people will have to take to the hills There is grave danger of the town being swept away.

Stop Grumbling

If you suffer from rheumatism or pains, for Ballard's Snow Liniment will bring quick relief. It is a sure cure for sprains, rheumatism, contracted muscles and all pains—and within the reach of all. Price, 25c, 50c, $1. C. R. Smith, Tenaha, Tex., writes: "I have used Ballard's Snow Liniment in my family for years and have found it a fine remedy for all pains and aches. I recommend it for pains in the chest." Sold by W. M. Johnson.

Meets Death Under Log Train.

Ocilla, Ga., May 25.—Mr. Daniel Merrit, a prominent young farmer of this county, was run over and killed by a log train on the O. and C. railroad near this place. It is said that he was on the passenger train just ahead of the log train and fell off the passenger train and the engineer of the log train did not see him in time to stop his engine from running over him.

Muddle has started the public to thinking. The wonderful success that has met Ballard's Horehound Syrup in its crusade on coughs, influenza, bronchitis and all pulmonary troubles—has started the public to thinking of this wonderful preparation. They are all using it. Join the procession and down with sickness. Price 25c, 50c and $1. Sold by W. M. Johnson.

Bill Recommended to Pass.

Washington, May 25.—The senate committee on public lands has recommended the passage by congress of a general bill, authorizing the secretary of the interior, to sell parcels of land not exceeding forty acres, for cemetery purposes. Under the present law it is necessary to pass a separate bill for every cemetery so authorized.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Burton Will Not Quit Senate.

Washington, May 25.—At the request of Senator Burton, whose case recently has been decided by the supreme court adversely, a conference was held between himself and the chairman of the senate committee on privileges and elections, Senator Burrows. The object of the Kansas senator was to gain some knowledge of the proposed procedure by Senator Burrows' committee regarding the resolution introduced by Senator Hale. Senatorn Burton does not contemplate resigning. The fact that a stay has been granted him sixty days in which to file an application for a rehearing, leaves his status, he contends, just as it was previous to the decision of the court, and that no action is necessary by the senate that would not have been necessary before the recent opinion was rendered.

Wins Suit Against Financier.

New York, May 25.—A special to a morning paper from Nyack, N. Y., says that William Duryea, of Nyack, N. Y., brought suit Wednesday against Eugene Zimmerman, the railroad financier, of Cincinnati;; William C. Rogers, William Cockrane Brown, William C. Herrin, Daniel Bluchman, and Adelade H. Brown, as executive of Archer Brown, to recover $20,000 which he invested six years and a half ago in stocks of the Georgia and Alabama Iron company. He was lead to purchase this stock, he alleged through misrepresentations and the stock proved worthless. Mr. Zimmerman was summoned to tell what he knew about the matter. The jury Wednesday night rendered a verdict for Mr. Duryea for $13,000, with 5 per cent interest. He also keeps his stock.

Postmaster Robbed.

G. W. Fouts, postmaster at Riverton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Electric Bitters, which cured me and have kept me well for eleven years." Sure cure for biliousness, neuralgia, weakness and all stomach, liver, kidney and bladder derangements. A wonderful tonic. At all drug stores. 50 cents.

Princess Ena Leaves For Spain.

London, May 25.—Princess Ena and her mother, Princess Henry of Battenberg, left London Thursday for Spain at the frontier of which King Alfonso will await his future bride. The departure of the princess from Victoria station was the occasion for an enthusiastic demonstration on the part of the Spanish colony here. While the platform also was crowded with English friends who gave the future queen of Spain a hearty send-off.

The lowest rate of illiteracy in the world is found in Sweden, Norway and Germany.

It isn't what the average man knows about the hereafter that he fears, but what he doesn't know.

Any concern which makes $86,000,000 in three months has little cause for complaint against hard times.

A Russian scientist says hair is a disease. Bald-headed men will not be likely to believe that it is catching.

The streets and sidwalks in various parts of the city will need more or less attention since the heavy rains of the past few days.

Ocala will entertain the Florida Press Association next week, and it is needless to say that "the boys" will be treated royally by the good people of the Brick City.

At last the worm has turned. An Indiana husband has out-talked his wife to such a degree that she has become a nervous wreck and is suing for divorce on the grounds stated.

Kansas is boasting. It has 85 out of 105 counties without a pauper. Twenty-five couties have no alms-houses and thirty-seven have not a single criminal case on the docket.

Gall seems to win out sometimes, but its victories are short-lived. The man who does a little better than he claimed to be able to do is the one who holds his job as long as he wants it.

The Madison New Enterprise says: "Judges Parkhill and Whitfield succeed themselves as members of the Supreme Court. This, perhaps, will relieve Brother Dodd of the 'ghoulish glee' which he anticipated."

President Roosevelt has recommended the appointment of a commission to investigate the woman in business. The investigators will probably find the women doing so well that they will want to go in business with them.

The large audiences which had to brave the rain and disagreeable weather to be present at the commencement exercises of our public school the past three or four nights clearly showed that our people have lost none of their enthusiasm and interest in matters educational.

The pretty girls down at Seaford, Del., felt so bad for the poor sufferers out in San Francisco that they decided to sell kisses at $1 apiece for the benefit fund. One rosey-cheeked, dewey-lipped, blushing maid actually brought over one hundred dollars into the relief fund in the space of two hours, and she said she was not a bit tired, either.

A San Francisco editor thus describes conditions in that city: "She's crippled, thirsty, hungry and broke; she has a few whole churches, only half her school houses, not one French restaurant, not a theatre; she is full of people without homes, jobs or clothes; she is the worst tunged up town that ever was. But the spirit of her is something to bring tears of pride to any American's eyes."

MARRIAGE.

God made the man for the woman, and the woman for the man. Each is incompetent without the other. In our experience even those who have married indifferently will have developed completer and nobler characters than those who have remained single. Marriage teaches both the man and woman tolerance, patience, tenderness. It lulls the passions and stimulates the intelligence. When there are children the noblest virtues and aspirations are aroused. Father and mother are united in the desire to do their utmost for the helpless little ones who depend upon them altogether, and make life fresh and young and beautiful for them.

There are certain men no woman should dare to marry. She would not dare to marry a man she does not love, no matter how exemplary his character and how attractive his bank account. Happiness in marriage is first and foremost dependent upon the individual and his power of not simply respect, but the deepest and completest devotion. The man who would make one woman divinely happy would make another miserable, because he is not her mate, and the good Lord never meant her to dwell with him. There must be that congeniality, that sympathy, that inexpressible something that men call love, that accepts its mate altogether, ignoring all faults, bearing things, believing things, hoping all things, enduring all things, never failing in tenderness and loyalty even though the whole world should turn against the beloved one. Such a love is worth waiting for and worth living for. To most women there is not much else in the world worth living for—and to most men also, since it is the only sure basis for permanent happiness.

MACHINE SMOKES CIGARS.

The Department of Agriculture is employing a mechanical smoker, with the intention of improving the quality of cigar tobacco. The machine takes five cigars at a time, and smokes them with more regularity than a human being. It takes a 10-seconds even draw, gives a puff, and then waits half a minute before it draws again. Each cigar is watched carefully during the process of combustion, and every detail affecting the filler, binder, wrapper, ash and aroma is noted down. When the best results are obtained, the seeds of the particular plants used in the manufacture of the cigars are put aside for next year's planting. In this way the department is convinced they will finally produce and unrivaled tabacco.

A brother editor gets after the fellow who fails to pay his subscription in the following manner: "Wouldn't it make you mad if you worked eight, ten or twelve years for a man and all that time he never had paid you a cent for your services? And still we have several just such people on our list, persons who have been reading the paper every week for these many long years without ever paying one cent for the support of the paper. Some day, perhaps, someone will invent a diet composed entirely of air and water, and then the country editor will be able to fare with the best of them—until Rockefeller or Morgan corners the air; then he'll go up the flue."

The average man of today is not accustomed to regard his health as his very best asset, yet that is precisely what it is. The man who will accord due regard to his health, from a strictly business standpoint, will go farther, last longer and accomplish more in the end than one who makes health an after-consideration. Success which is attained at the expense of health is worth absolutely nothing to the man who attains it. There can be no pleasure either in the process or in the final result.

A novel use of compressed air is made by some railway companies in the Southern States, says The Railway News. When the loads of cotton for export are being taken to the coast, there is always some danger of such highly inflammable material becoming damaged through sparks from the locomotives. To prevent this, the locomotive boilers are filled with compressed air. A train load of several thousand bales of cotton can be hauled by these locomotives at a rate of twelve miles an hour, although no fire whatever is used in working them.

We cannot understand too well, nor heed too carefully, the laws which govern physical health. We are the most bustling, hurried, hard-worked nation on the face of the earth; and when taking a well-earned vacation, make such hard work of it that we come back more weary and exhausted than when we went.

In the "Life of George Washington" just published in England the assertion is made that the father of his country was really a woman in disguise. If the English think it is going to add anything to their credit to set up the claim that their armies were whipped by a lady they should be granted that comfort.

An unknown man who walked down the main street of New York kicking an American flag along in the dirt was mobbed by indignant citizens, clubbed by a policeman, sentenced by a court, and put to work breaking stones in a penitentiary before the day was over. He was given six months.

Brief Happenings From Various Sections of State.

THE MOST IMPORTANT EVENTS

Transpiring in "The Land of Flowers." Things "Boiled Down" to Suit the Busy Reader—Items of Interest to All Classes.

Leesburg will celebrate the Fourth of July in grand style.

There is a great demand for houses in Bartow, nearly every house in the town being rented.

A solid carload of pines were shipped from Boynton last week, the average being about 24 to the crate.

The citizens of Green Cove Springs have voted to bond for an electric light plant and the municipal improvements.

The election held last Tuesday in Miami to decide whether that city was to be bonded for $100,000 for municipal improvements resulted in a victory for bonding by a large majority.

The committee on arrangements for a Fourth of July celebration in Miami have decided that one of the features will be an immense old-time barbecue, while another will be a civil parade.

An attempt was made last Saturday night to rob the residence of Postmaster Harper at Boynton but proved unsuccesful as the thieves were discovered before they had made any headway. It was well known that Mr. Harper had quite a sum of money at his home from Saturday's business.

The residents in the vicinity of Little River are in a predicament to determine just what to do with an aged white man, named Wells, who abides in a little house at that place and possesses a determination to starve himself to death. Wells, who is about 65 years of age, has been a source of annoyance and expense to the county for some time. Many believe him crazy, but physicians refuse to certify to that fact, hence he cannot be sent to the asylum. Several months ago he was examined for lunacy, but the examination proved his mental condition sound.

Was Wasting Away.

"I had been troubled with kidney disease for the last five years," writes Robert R. Watts, of Salem, Mo. "I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally, I tried Foley's Kidney Cure and less than two bottles completely cured me, and I am now sound and well." During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. J. W. McCollum & Co.

Are You Tired, Nervous and Sleepless?

Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourishing blood; they are *starved* nerves. Dr. Pierce's Golden Medical Discovery *makes pure, rich blood*, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs in oil. In this way you feel clean, strong and strenuous—you are toned up and invigorated, and you are good for a whole lot of physical or mental work. Best of all, the strength and increase in vitality and health are *lasting*.

The trouble with most tonics and medicines which have a large, booming sale for a short time, is that they are largely composed of alcohol holding the drugs in solution. This alcohol shrinks up the red blood corpuscles, and in the long run greatly injures the system. One may feel exhilarated and better for the time being, yet in the end weakened and with vitality decreased. Dr. Pierce's Golden Medical Discovery contains no alcohol. Every bottle of it bears upon its wrapper *The Badge of Honesty*, in a full list of all its several ingredients. For the druggist to offer you something he claims is "just as good" is to insult your intelligence.

Every ingredient entering into the world-famed "Golden Medical Discovery" has the unanimous approval and endorsement of the leading medical authorities of all the several schools of practice. No other medicine sold through druggists for like purposes has any such endorsement.

The "Golden Medical Discovery" not only produces all the good effects to be obtained from the use of Golden Seal root, in all stomach, liver and bowel troubles, as in dyspepsia, biliousness, constipation, ulceration of stomach and bowels and kindred ailments, but the Golden Seal root used in its compounding is greatly enhanced in its curative action by other ingredients such as Stone root, Black Cherrybark, Bloodroot, Mandrake root and chemically pure triple-refined glycerine.

"The Common Sense Medical Adviser," is sent free in paper covers on receipt of 21 one-cent stamps to pay the cost of mailing *only*. For 31 stamps the cloth-bound volume will be sent. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation, biliousness and headache.

Voluntary Wage Increase.

Danielson, Conn., May 25.—A voluntary increase of 10 per cent has been granted all cotton mill employes in this district, notices to that effect having been posted in the mills in this town Mossup, Jewett City, Wauregan and many other places in Windham and New London counties. The action of the mill owners affects 20,000 persons. It is due, it is said, to the present excellent condition of the cotton milling industry in the state.

Town In Danger from High Water.

Seattle, May 25.—The Post Intelligencer has received advices through the United States cable office from North Fork, Alaska, stating that the river at that point rose 8 feet Wednesday night and that the water had now reached the cabins from all sides. The men were working to save the cabins and if the river rises another foot, the people will have to take to the hills There is grave danger of the town being swept away.

Stop Grumbling

If you suffer from rheumatism or pains, for Ballard's Snow Liniment will bring quick relief. It is a sure cure for sprains, rheumatism, contracted muscles and all pains—and within the reach of all. Price, 25c, 50c, $1. C. R. Smith, Tenaha, Tex., writes: "I have used Ballard's Snow Liniment in my family for years and have found it a fine remedy for all pains and aches. I recommend it for pains in the chest." Sold by W. M. Johnson.

Meets Death Under Log Train.

Ocilla, Ga., May 25.—Mr. Daniel Merrit, a prominent young farmer of this county, was run over and killed by a log train on the O. and C. railroad near this place. It is said that he was on the passenger train just ahead of the log train and fell off the passenger train and the engineer of the log train did not see him in time to stop his engine from running over him

The Life Insurance

Muddle has started the public to thinking. The wonderful success that has met Ballard's Horehound Syrup in its crusade on coughs, influenza, bronchitis and all pulmonary troubles—has started the public to thinking of this wonderful preparation. They are all using it. Join the procession and down with sickness. Price 25c, 50c and $1. Sold by W. M. Johnson.

Bill Recommended to Pass.

Washington, May 25.—The senate committee on public lands has recommended the passage by congress of a general bill, authorizing the secretary of the interior, to sell parcels of land not exceeding forty acres, for cemetery purposes. Under the present law it is necessary to pass a separate bill for every cemetery so authorized.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Burton Will Not Quit Senate.

Washington, May 25.—At the request of Senator Burton, whose case recently has been decided by the supreme court adversely, a conference was held between himself and the chairman of the senate committee on privileges and elections, Senator Burrows. The object of the Kansas senator was to gain some knowledge of the proposed procedure by Senator Burrows' committee regarding the resolution introduced by Senator Hale. Senatorn Burton does not contemplate resigning. The fact that a stay has been granted him sixty days in which to file an application for a rehearing, leaves his status, he contends, just as it was previous to the decision of the court, and that no action is necessary by the senate that would not have been necessary before the recent opinion was rendered.

Wins Suit Against Financier.

New York, May 25.—A special to a morning paper from Nyack, N. Y., says that William Duryea, of Nyack, N. Y., brought suit Wednesday against Eugene Zimmerman, the railroad financier, of Cincinnati;; William C. Rogers, William Cockrane Brown, William C. Herrin, Daniel Bluchman, and Adelade H. Brown, as executive of Archer Brown, to recover $20,000 which he invested six years and a half ago in stocks of the Georgia and Alabama Iron company. He was lead to purchase this stock, he alleged through misrepresentations and the stock proved worthless. Mr. Zimmerman was summoned to tell what he knew about the matter. The jury Wednesday night rendered a verdict for Mr. Duryea for $13,000, with 5 per cent interest. He also keeps his stock.

Postmaster Robbed.

G. W. Fouts, postmaster at Riverton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Electric Bitters, which cured me and have kept me well for eleven years." Sure cure for biliousness, neuralgia, weakness and all stomach, liver, kidney and bladder derangements. A wonderful tonic. At all drug stores. 50 cents.

Princess Ena Leaves For Spain.

London, May 25.—Princess Ena and her mother, Princess Henry of Battenberg, left London Thursday for Spain at the frontier of which King Alfonso will await his future bride. The departure of the princess from Victoria station was the occasion for an enthusiastic demonstration on the part of the Spanish colony here. While the platform also was crowded with English friends who gave the future queen of Spain a hearty send-off.

If You Don't

Succeed the first time use Herbine and you will get instant relief. The greatest liver regulator. A positive cure for constipation, dyspepsia, malaria, chills and all liver complaints. Mr. C——, of Emory, Tex., writes: "My wife has been using Herbine for herself and children for five years. THE DAILY SUN, 10c a Week.

Defense Rests Case.

New York, May 25.—The defense of Josephine Terranova, the 17-year-old Italian girl, who killed her uncle, Gatano Regio, and his wife, Concetta, rested its case Thursday. The girl is being tried on a murder charge only in the case of her aunt. Dr. Graeme Hammond, an alienist, was the only witness called today by the defense. He said that he had applied a lighted match to the right side of the defendants face, but that she had betrayed no indication of sensation, although the test should have been painful. He believed her to be suffering from adolescent insanity.

Gun Went Off Accidentally.

Columbus, Ga., May 25.—A telegram Wednesday brought news of the accidental shooting of B. G. Battle, a young man of Columbus, by his cousin, Fitz Simpson, of Omaha, Ga., near the Chattahoochee river, in Stewart county,. A snake crawled across the path, and in preparing to shoot it, Simpson's gun was discharged before he was ready, the load taking effect in Battle's side. His wounds are serions, but his exact condition is yet unknown in Columbus. His sister, Mrs. Walter L. Meadows, left for the scene immediately.

Woman Charged with Murder.

Waco, Tex., May 25.—Mrs. Edward Taliaferro, aged 21 years, of Ft. Worth, was arrested here charged with the murder of A. S. Cree, a boilermaker, at Ft. Worth Saturday night while Cree was saying his prayers. Mrs. Taliaferro states that at the proper time she will make a statement which will exonerate her. She will be taken to Ft. Worth.

Artist Found Murdered.

London, May 25.—Archibald Wakely, an artist and a regular exhibitor at the Royal Academy, was found murdered in his rooms at Bayswater on Thursday. The front of his skull was battered in but the weapon used was not found. There is no clew to the perpetrators of the crime.

Bill Favorably Reported.

Washington, May 25.—The senate committee on the Philippines has decided to report favorably the bill prepared by the war department and introduced by Senator Lodge relating to the silver coinage in the Philippines. Secretary Taft was before the committee and explained the necessity for the law.

Killed by a Switch Engine.

Gadsden, Ala., May 25.—M. A. Stockdale, a prominent lawyer of this city, was run over and killed by a switch engine. Stockdale, who is said to have been drinking, stood in the center of the track and apparently paid no heed to the whistle of the engine.

Taken from Jail and Killed.

Columbus, Miss., May 25.—George Younger, a negro, who shot and killed William Rector, a well known citizen, while the latter, as a member of a posse, was endeavoring to effect the negro's arrest, was taken from the jail at this place by a mob and lynched.

Broadwater Shoots McAuliffe.

Augusta, Ga., May 25.—W. H. Broadwater and Will McAuliffe, two car inspectors, became involved in a fight and Broadwater shot McAuliffe in two places. The wounded man will recover.

Best for Women and Children.

On account of its mild action and pleasant taste Orino Laxative Fruit Syrup is especially recommended for women and children. It does not nauseate or gripe like pills and ordinary cathartics. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating them. Remember the name Orino and refuse substitutes. J. W. McCollum & Co.

NOTICE OF APPLICATION FOR LETTERS PATENT.

Notice is hereby given that the undersigned will apply to the Hon. N. B. Broward, Governor of Florida, at Tallahassee, Florida, on the 30th day of May, 1906, for Letters Patent incorporating Franklin Phosphate, Company, with the following charter.

This April 20th, 1906.

B. F. CAMP,
P. D. CAMP,
P. J. NORFLEET,
J. S. NORFLEET,
D. O. NORFLEET,
F. C. NORFLEET.

ARTICLES OF INCORPORATION OF THE FRANKLIN PHOSPHATE COMPANY.

The undersigned, P. D. Camp of South Hampton county, Virginia, D. O. Norfleet of Alachua county, Florida, F. C. Norfleet of Alachua county, Florida, P. J. Norfleet of Marion county, South Carolina, J. S. Norfleet of South Hampton county, Virginia, and B. F. Camp of Hamilton county, Florida, do associate themselves together for the purpose of forming a corporation, under and in pursuance of laws of the State of Florida, and do hereby adopt the following charter:

ARTICLE I

Section 1—The name of this corporation shall be FRANKLIN PHOSPHATE COMPANY, and its principal place of business shall be at Newberry, Alachua county, Florida.

Section 2—The Board of Directors of said Franklin Phosphate Company may establish branches and auxiliary places of business as they from time to time may provide.

ARTICLE II.

Section 1—The general nature of the business to be carried on by the said Franklin Phosphate Company shall be to do and perform all and singular, the matters and things that corporations for profit existing under the laws of the State of Florida may do and perform under the laws of said State

Section 2—The general nature of the business to be transacted by the Franklin Phosphate Company shall be the buying, leasing, manufacturing and otherwise acquiring, selling and disposing of all kinds, qualities and descriptions of phosphate, phosphate lands, pebble phosphate, rock phosphate and phosphate products, and in the buying, selling, refining, burning, mining, digging and otherwise acquiring, selling, or disposing of crude phosphate from phosphate lands; the building and operating of railroads and tramroads in connection with the said business, said railroad not to be used as a common carrier; the loaning of money, and the taking of property or other adequate security therefor; the buying, selling, handling, and in anywise dealing in all kinds of merchandise, goods, wares, and chattels, at wholesale, retail or on commission; to hold, buy, own, control, deliver, sell, convey, lease or re-lease, mortgage, pledge, exchange, improve or otherwise deal in and dispose of both real and personal property of any nature or kind whatsoever, and do all other things necessary, appropriate, convenient or incidental to the purposes herein stated. The foregoing clauses shall be construed as independent business and powers, and the enumeration of any specific business or power shall not be held to limit or restrict, in any manner, any other business or power of this corporation. This corporation shall also have the power to own and deal in stocks and bonds of other corporations, and to represent and vote such stock at stockholders' meetings, to engage in any of the businesses enumerated herein as a partner with others, be they corporations or individuals.

Section 3—The Franklin Phosphate Company may sue and be sued, plead and be empleaded, contract and be contracted with, buy, lease, sell or otherwise acquire and dispose of both real and personal property, to lend and borrow money, give and take security, and in fact to do and perform any business or engage in any undertaking, not inconsistent with the above mentioned matters and things.

ARTICLE III.

Section 1—The capital stock of this corporation shall be Fifty Thousand Dollars, to be divided into five hundred shares of the par value of One Hundred Dollars each, and shall be paid for in money, or in lieu thereof, the same or any portion thereof, to be paid for in property, labor or service at a just valuation to be fixed by the Board of Directors, and any part of said capital stock of said Franklin Phosphate Company may be purchased and paid for by or with property, labor or service, at a just valuation of such property, labor or service to be fixed by the Board of Directors. And not less than ten per cent of said capital stock shall be subscribed and paid in, before the organization of said corporation, and the remainder, when subscribed, shall be paid for by the subscribers upon the call of the Board of Directors.

Section 2—The capital stock of this corporation may be increased, in the manner prescribed by law, to One Hundred Thousand Dollars.

ARTICLE IV.

Section 1—The term for which the Franklin Phosphate Company shall exist shall be one hundred years, unless sooner dissolved according to law.

ARTICLE V

Section 1—The business of the Franklin Phosphate Company shall be conducted by a President, Vice-President, Secretary, Treasurer, General Manager, and a Board of Directors which shall consist of not less than three stockholders.

Section 2—The Board of Directors shall be elected by the stockholders at the annual meeting, by a majority vote of the stock at such meeting; provided, that the Board of Directors may elect a Director to fill the unexpired term of a Director, whether caused by death, removal or resignation.

Section 3—The Directors shall elect, from their number, a President, Vice-President, Secretary, Treasurer and a General Manager at the annual meeting of the Board of Directors; provided, that the office of the Secretary and Treasurer may be held by one and the same person; and that any Director of the corporation may be elected General Manager, although he holds another office.

Section 4—Until the first annual meeting of the stockholders, P. D. Camp, D. O. Norfleet, F. C. Norfleet, P. J. Norfleet and B. F. Camp shall be the Board of Directors of said Franklin Phosphate Company and shall hold their offices until their successors are elected and qualified, and the said P. D. Camp shall be President, B. F. Camp, Vice-President, D. O. Norfleet, Treasurer, and F. C. Norfleet, Secretary and General Manager, and shall hold their respective offices and positions until their successors are elected and qualified.

Section 5—The annual meeting of the stockholders of the Franklin Phosphate Company shall be held at the office of the corporation on the third Thursday in January, 1907, and annually thereafter, and special meetings at such times and by such authority as may be prescribed in the by-laws.

Section 6—The annual meeting of the Board of Directors shall be held on the same day of, but after the holding of the annual meeting of the stockholders, and at the same place.

ARTICLE VI.

Section 1—The highest amount of indebtedness or liability to which the Franklin Phosphate Company can at one time subject itself is Two Hundred Thousand Dollars.

ARTICLE VII.

Section 1—The names and places of residence of the subscribers of said capital stock, and the amount of capital stock subscribed by each, are as follows:

P. D. Camp, Franklin, Virginia, 125 shares.

D. O. Norfleet, Newberry, Florida, 125 shares.

Before me personally came J. S. Norfleet, to me well known to be one of the subscribers to the above and foregoing charter, and acknowledged the execution thereof to be his free act and deed for the uses and purposes therein expressed.

In witness whereof, I have hereunto set my hand and official seal this, the 13th day of April, A. D. 1906.

(Signed) TIM BAILEY,
(L. S.) Notary Public.
My commission expires April 10th 1907.

HOME-COMING FOR ALL KENTUCKIANS.

Over 50,000 former residents of the State of Kentucky have accepted the invition of the Louisville Commercial Club to his home-coming celebration to be held in Louisville June 13-17, 1906. It will be the greatest gathering ever held in the State of Kentucky and $60,000 has already been subscribed for an entertainment fund. Wednesday, June 13, will be Reception and Welcome Day; Thursday, June 14, "Foster Day" in honor of Stephen Collins Foster, the author of "My Old Kentucky Home;" Friday, June 15th, Daniel Boone Day; Saturday, June 16, Greater Kentucky Day. For this event the

LOUISVILLE & NASHVILLE R. R.

Will sell round-trip tickets from all points to Louisville and return at ONE FARE plus 25 cents, tickets being on sale June 10, 11 and 12, limited returning June 23 with privilege of extension of limit until July 23 by depositing ticket and upon payment of 50 cents. Stop-overs will be permitted at Glasgow Junction for parties desiring to visit Mammoth Cave and side trip tickets will be sold at Louisville to all points in the State at ONE FARE plus 25 cents for the round trip, such tickets being on sale June 16 18. Indications are that several special trains will be run for this occasion, full particulars of which will be announced later. A sixteen-page booklet giving full particulars can be secured from

READ THIS.

Lexington, Tenn., June 4, 1901.

This is to certify that I have used the Texas Wonder, Hall's Great Discovery, for kidney trouble and have been very greatly benefited and I can cheerfully recommend it to the public.

J. O. CORLTON, Ex-Sheriff.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by J. W. McCollum & Co.

Friday Night's Fire.

At 9:50 o'clock Friday night an alarm of fire was turned from Box 62, which summoned the department to the tailor shop in the Bnuknight block on West Main street N. The department responded with its usual promptness, and extinguished the fire before any serious damage was done.

Court Has Adjourned.

The spring term of the circuit court adjourned Friday, after the winding up of a few minor affairs, and Judge Wills left for his home at Starke on the 2 o'clock train.

Arthur Voyle, who has been attending the law department of the Stetson University at DeLand, has graduated from that department, and has been admitted to practice in the State courts. He expects to return to his home here about June 1. His numerous friends throughout this section congratulate him and wish him well in his profession.

A washout on the Jacksonville and Southwestern division of the Atlantic Coast Line has necessitated that systemoperating the main line trains between Jacksonville and St. Petersburg for the past two days via Palatka, instead of via Gainesville, as per the new schedule recently inaugurated. It is anticipated, however, that the repair will be made within a day or two, when the trains will continue by this route.

Mr. and Mrs. J. Lindsey Patton, five children and servant, who have been here for the past few months on account of the health of one of the little ones, returned to their home in Ashland, Va., Thursday. Mr. and Mrs. Patton made many friends during their stay here, all of whom hope to have them again next season. The family returned in Mr. Patton's private car No. 46 of the Richmond-Washington Short Line.

The East Florida Telephone Company (the Voyle system) is now giving its patrons an excellent service. This company was very prompt and very efficient in supplying the election returns at the recent primary, through the kindness and energy of the operator at Central station, George Evans, Jr., which was highly appreciated by The Sun, as well as the candidates. It was the first time in the history of elections in Alachua county where the candidate could ascertain just about "where he was at" before retiring for the night. They are under obligations to Mr. Evans, who was faithful at his post.

MRS. R. WILSON.

MISS TEBEAU'S SCHOOL.

Closed for Season Friday After a Most Successful Term.

After a most successful term, Miss Maggie Tebeau's school closed its thirty-third year Friday in a pleasant and impressive manner.

There were no exercises except those in music and elocution, which were participated in by Misses Alice Thomas, Rafaila Wilson, Minnie Eddy, and Master Fraser Thomas.

There were four medals, namely: For obedience, punctuality, diligence and advancement in study, which were awarded as follows:

First honor, Miss Katherine Clyatt of Judson; second honor, Miss Rafaila Wilson; third honor, Miss Alice Thomas; fourth honor, Miss Minnie Eddy.

The school has been most successful, and both parents and students are happy over the work performed during the term. Miss Tebeau and her assistant, Miss Alice Thomas, deserve a great deal of credit for their excellent work in the matter of training the mind.
